Declaration of Conformity

Insulated tools

Hereby we certify that the insulated KNIPEX tools are insulated conforming to valid German and International Standards.

Insulated KNIPEX - pliers and cable shears, that are identified by the numbers "6", "7" or "8" at the 4th position of the item No. and insulated tools with a KNIPEX item No. starting with "98" (like insulated assembly tools for screws and nuts, cable knives and hacksaws) are insulated conforming to the valid edition of IEC 60900 (DIN EN 60900).

Insulated gloves conform to IEC 60 903 (DIN EN 60 903), insulating blankets and covers are in accordance with [IEC 61112](#).

Manufacturing and tests follow written procedures, which are managed and maintained within the KNIPEX Quality Assurance System, which is certified in accordance with DIN EN ISO 9001:2017.

A lot of items (see website, price list or main catalogue) are additionally certified by the VDE as an independent German testing institute. In addition to product certification, the VDE audits the KNIPEX manufacturing process and Quality Assurance especially concerning insulated and insulating tools every year.
